RE: Career Exploration Camps

Included in this mailing is information regarding our final three career exploration camps for the current school year. First of all, there is a flyer that points out the dates for the three camps that will be held on the Lake Area Technical Institute. Once again, these camps are for students 9-12 and provide a fantastic opportunity for students to take a more in depth look at a variety of careers. These last three camps will involve Transportation, Business and Information Technology, and Manufacturing.

As always, each will involve hands-on activities and give students a taste of the real thing. There's no registration fee for the camp and lunch will be provided. All of the camps will begin at 9:00 and conclude by 2:30.

Included in this mailing is a flyer and registration form for our upcoming Transportation and Business/Information Technology Camps, both of which will be held Wednesday, February 1st. Feel free to duplicate the registration forms as needed. If the materials do not apply to you, please share them with someone else who may benefit.

We'll send flyers and registration forms for the remaining Manufacturing Technology Camp later this month.

If you have any questions or need further clarification, give either of us a call Dodie: 882-5284, ext. 328, or send an e-mail bemisd@lakeareatech.edu. Or Bonita: 882-5284 ext. 321, or send e-mail to russellb@lakeareatech.edu. We hope you'll seriously consider giving your students an opportunity to explore some of their career interests.
